

Otto Group - List of Business Partners and Supply Chain Facilities - 2023

This list contains business partners (only private labels) as well as the final production facilities, which have been active for the Otto Group companies bonprix, Venus, Otto, Witt Group, Sheego, Limango and/or Otto Austria Group. A business partner/facility is considered active if it has been active in 2023 and remains active as of the date the list is created. While according to our minimum requirements, business partners must disclose final production facilities in so-called risk countries according to the amfori BSCI classification, disclosing facilities in low-risk countries is voluntary. Final production facilities in risk countries need to demonstrate adherence to a valid social standard accepted by the Otto Group. All facility related information is based on data that business partners share with Otto Group companies. The list is updated regularly but not on a daily basis.
